Natural Resources Building  
P.O. Box 8700

Dear Minister:

I am pleased to submit a Performance-Based Activity Plan for the Newfoundland and Labrador Livestock Owners Compensation Board, as a category 3 public body under the Transparency and Accountability Act. This Plan covers the period from April 1, 2014 to March 31, 2017.

The Newfoundland and Labrador Livestock Owners Compensation Board recognizes the vision and mission of the Forestry and Agrifoods Agency and is committed to its supporting role by administering a livestock insurance program to support livestock producers of the province.

The Newfoundland and Labrador Livestock Owners Compensation Board has reviewed the strategic direction of the Provincial Government in the area of forestry, agriculture and agrifoods, as communicated by the Minister of Natural Resources. As such, this plan has been prepared in support of a direction toward enhanced utilization, sustainability and public awareness of the forestry, agriculture and agrifoods sectors.

My signature below is on behalf of the Newfoundland and Labrador Livestock Owners Compensation Board and is indicative of the Board’s accountability for the preparation of this plan and the achievement of the objective contained in this plan.

Respectfully submitted,

C. MacDonald
Cynthia MacDonald, P. Ag.  
Chairperson
Overview

Section 3(2) of the *Livestock Insurance Act*, R.S.N. 1990, c.L-23 provides for the membership of the Newfoundland and Labrador Livestock Owners Compensation Board. The membership of the Board shall consist of not less than 3 and not more than 5 members to be appointed by the Lieutenant-Governor in Council to hold office at his/her pleasure.

The Board presently consists of the following members:

- Cynthia MacDonald - Chairperson, Director of Agriculture Business Development Division, Forestry and Agrifoods Agency, Department of Natural Resources
- Gerald Wicks – Provincial Representative, Agriculture Development Officer, Forestry and Agrifoods Agency, Department of Natural Resources
- Dr. Peggy Dixon - Federal Representative, Agriculture and Agri-Food Canada
- Junior Eveleigh - Producer Representative
- Elaine Wells - Producer Representative

The Newfoundland and Labrador Livestock Owners Compensation Board operates under the umbrella of the Forestry and Agrifoods Agency with headquarters in Corner Brook. The Board operates on an annual budget of approximately $6,500.00. The province covers the administration costs of the program and the producers pay 100 percent of the premiums. These premiums are deposited into a fund from which indemnities are paid. The annual financial statements are audited by the Office of the Auditor General of Newfoundland and Labrador.

The Program Coordinator, who administers the livestock insurance program, is an employee of the Forestry and Agrifoods Agency. Agriculture Development Officers across the province, also employed by the Forestry and Agrifoods Agency, provide inspection services when necessary. These Agriculture Development Officers verify livestock tag numbers on applications that have been submitted by producers. The Agriculture Development Officers are also responsible for verifying any claims for livestock loss, and livestock tag number of the lost animal.

In 2013-14 there were 17 producers enrolled in the livestock insurance program administered by the Board. Through this program, $2,415.00 was paid out by the Board for livestock losses. Also, indemnity payments of $5,475.00 from the 2012-13 production year were approved and paid in fiscal year 2013-14 as there was no board quorum in place to decide claims during the 2012-13 year. Indemnity payments were above the ten year average due to a high number of losses from wild dogs and coyotes.
Mandate

The mandate of the Livestock Owners Compensation Board is to establish and carry out a Livestock Insurance Program under the direction, supervision and control of the Minister. The Board shall:

- administer plans of livestock insurance established under the Livestock Insurance Act or the regulations,
- fix by order and publish in the Gazette a final date in each year for the receipt of applications for insurance under a plan,
- conduct surveys and research programs relating to insurance and obtain statistics for the purposes of the Board,
- evaluate and determine livestock losses and pay claims under a plan,
- enter into agreements with or retain persons for the soliciting and receiving of applications for instance, the collecting of premiums and the adjusting of claims under plans for and on behalf of the Board, and the doing of other things on its behalf that the Board considers necessary,
- reinsure with another insurer the risk or a portion of it under a contract,
- require an applicant for livestock insurance or an insured person to provide the information, statements and reports that the Board may require,
- exercise the powers and perform the duties that are conferred or imposed upon it under the Livestock Insurance Act or another Act,
- perform the other functions and discharge the other duties that are assigned to it by the Lieutenant-Governor in Council and,
- make the orders and directions that are necessary to enforce the observance of the Livestock Insurance Act, the regulations or a plan.

Refer to Appendix A for the Board’s full mandate.
Core Values and Guiding Principles

The Livestock Owners Compensation Board performs its duties within the core values and guiding principles established by the Forestry and Agrifoods Agency:

**Integrity** - Each individual will be honest, dependable, fair, credible and trustworthy. They will openly acknowledge mistakes, seek to correct them and learn from them.

**Respect and Professionalism** - Each individual will apply legislation and policies equitably and will serve the Department’s client groups to the fullest extent possible in a timely manner.

**Collaboration** - Each individual will seek the opinions and ideas of others in the application of legislation and policies.

**Innovation** - Each individual will demonstrate initiative and flexibility in responding to challenges and change.

**Safety** – Each employee views the personal safety of themselves and co-workers on the highest regard and will promote workplace safety at all times.

**Productive** – Each employee will maximize their productivity and efficiency in carrying out their duties.

**Continuous Improvement** - Each employee will develop their strengths, improve their knowledge, increase their potential and achieve personal growth through continuous education.

**Timely** – Each employee will conduct their duties in a timely manner and meet all established deadlines.

Primary Clients

The primary clients of the Newfoundland and Labrador Livestock Owners Compensation Board are producers/owners of sheep, beef, dairy, and/or goats in Newfoundland and Labrador.
Lines of Business

The Livestock Owners Compensation Board provides compensation to owners of sheep, goats and cattle in the unfortunate event that their animals suffer injury or death by roaming dogs or other predators such as coyotes, lynx and bears. All types of predator attacks are compensated for provided that the carcass of the injured or dead animal and corresponding ear tag are available for inspection. These program requirements are necessary to reduce the moral hazard that may affect indemnity claims.

Applications for Livestock Insurance are mailed to the producers at the end of each fiscal year, for the upcoming fiscal year. Livestock owners must file identifying tag numbers with the Board at that time along with the premiums payable to the Livestock Owners Compensation Board. The producers forward the completed application to the Agriculture Development Officers who verify the livestock tag numbers. Any claims for livestock loss are reported to the Agriculture Development Officers who are responsible for verifying the claim and the tag number of the insured livestock and taking pictures where possible.

The majority of livestock insured under the program are sheep due mainly to their vulnerability to attack on private and community pastures by roaming dogs and other predators such as coyotes, lynx and bears. A small number of goats and cattle have been insured under the program. The relatively small number of cattle insured is due to their larger physical size compared to most predators.

The premium rates are announced by the Minister of Natural Resources prior to the beginning of the new fiscal year. Producers pay one hundred per cent of the livestock insurance premium and the Department of Natural Resources is responsible for the costs to administer the Livestock Insurance Program.

Vision

Through the Livestock Insurance Program, the Livestock Owners Compensation Board protects investments in livestock. By easing the financial burden caused by livestock loss, the Livestock Insurance Program helps ensure resources are available for future generations and helps ensure prospects for future development. This contributes to the vision of the Department of Natural Resources, stated as follows:

“The vision of the Department of Natural Resources is a province that realizes the full benefit from the sustainable development of its natural resources.”
Mission

Planning guidelines associated with the *Transparency and Accountability Act* encourage all public bodies to consider the development of mission statements. The guidelines provide the flexibility, however, for small public bodies like the Livestock Owners Compensation Board to determine for themselves whether the development of a mission statement will add value to planning efforts. A mission statement, if developed, should represent the priority focus area of a public body and should be accompanied by measures and indicators that will help evaluate success at the end of the planning period.

During the development of its 2014-17 Activity Plan, the Livestock Owners Compensation Board determined that its mandate, as stated above, accurately represents its priority focus and, therefore, a mission statement would be unduly repetitive. As a result, the Board opted to forgo the development of its own mission statement and, instead, to illustrate its role in supporting the mission of the Forestry and Agrifoods Agency, part of the Department of Natural Resources.

The Forestry and Agrifoods Agency’s mission statement is as follows:

“By March 31, 2017, the Forestry and Agrifoods Agency will have supported programs and services to strengthen and sustain forestry, agriculture and agrifoods industry development in an innovative and economically beneficial manner.”

The Livestock Owners Compensation Board contributes to agricultural and agrifoods resource development and sustainability by administering the Livestock Insurance program, thereby helping protect producers from financial losses. In this manner it provides general support to the Forestry and Agrifoods Agency’s mission. The Livestock Owners Compensation Board determined that it has no material impact on achievement of specific measures and indicators associated with the mission and, as such, no specific mission-related results have been targeted in this plan.

To view the complete mission of the Forestry and Agrifoods Agency, refer to its 2014-17 Strategic Plan which can be found on the Department of Natural Resources’ website at www.gov.nl.ca/nr.
Objective

This section of the plan outlines the key priority of the Livestock Owners Compensation Board for the period April 1, 2014 to March 31, 2017. The objective and associated indicators identified for the priority, or “issue”, area apply to each year covered by the plan and will be reported on in relevant annual reports.

Issue 1: Management and Administration of the Livestock Insurance Program

The primary issue of the Livestock Owners Compensation Board is to deliver the livestock insurance plan to the livestock producers of Newfoundland and Labrador who choose to participate and to monitor the sustainability of the insurance fund which accumulates premiums and pays indemnities. The Board is committed to supporting the sustainability of the industry. Providing insurance against predator attacks aids producers in their ability to withstand such losses as well providing stability to enable increased production. In doing so, the Board contributes to the strategic direction of the Provincial Government toward enhanced utilization, sustainability and public awareness of the forestry, agriculture and agrifoods sectors.

Objective: The Livestock Owners Compensation Board will have continued to offer an insurance plan to producers under the Act and performed ongoing monitoring and assessment of the insurance fund.

Measure: Offered insurance plan and monitored fund

Indicators:

- Registered all applications
- Issued contracts
- Inspected all tagged livestock
- Inspected all livestock claims
- Reviewed all claims
- Communicated decisions to applicants and paid indemnities, where applicable
- Monitored insurance fund for sustainability, recommended changes as necessary, and implemented approved changes

Appendix B: Strategic Directions

Strategic directions are the articulation of desired physical, social or economic outcomes and normally require action by more than one government entity. These directions are generally communicated by government through platform documents, Throne and Budget Speeches, policy documents and other communiqués. The Transparency and Accountability Act requires departments and public bodies to take into account these strategic directions in the preparation of their performance-based plans. This action will facilitate the integration of planning practices across government and will ensure that all entities are moving forward on key commitments.

The Livestock Owners Compensation Board needs to consider Strategic Directions as communicated to the Forestry and Agrifoods Agency by the Minister of Natural Resources. For the 2014-17 planning period, these directions are outlined in the table below.
